

APINNACLE™ *Distinction*

Introducing the new Pinnacle Distinction range, eight different distiller's yeast products creating a highly differentiated range of new make spirit aromas and flavors. Leveraging our "Yeast for Flavour" concept we successfully deliver new make flavors to drive flavour innovation and create blending diversity that combines perfectly with the casks and barrels of your choice.

The pressure on distilleries to appeal to the next generation of whiskey consumers is immense and an ever-present challenge. Future spirits consumers - such as Millennials, Gen z and even Alpha moving forward, will demand a wide range of flavors and taste experiences that are evolving at a fast pace. While different cask types have given us wide variety of whiskey flavour combinations in the past, this technology is starting to reach maturity. An industry wide challenge has been set to discover the next flavour differentiator in whiskey.

AB Biotek have answered this challenge by releasing our latest technology led solution to the whiskey distilling industry - The Pinnacle Distinction Range.
